

April 11, 2011

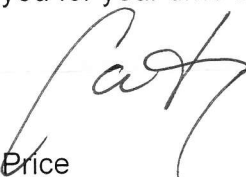

Hello Councilmembers!

My name is Caitlin Price and I am writing to ask you to consider me for an appointment to the Greater Griffith Park Neighborhood Council. I was born and raised in the Los Feliz Village and have lived my entire life within the community. I am young but I am wholly and completely dedicated to my community. I aspire to work in local government, specifically in Los Angeles City Council District 4. I believe that our community's interests are being served well in both Neighborhood and City Council and I would like to lend my hand in addressing and solving the issues and concerns of our community.

I am a Political Science major at California State University Northridge and I am very passionate about politics and government. I find the subject to be relevant and essential to all people because, quite frankly, the government and politics of the United States literally affects everyone in the world. I am currently interning at Los Angeles City Hall for Councilmember Paul Krekorian, District 2. In my 6 months at CD 2, I have acquired a good knowledge of the workings of local government. To further my knowledge of Los Angeles' many landmarks I am currently in the docent training program for the Hollyhock House at the Barnsdale Art Park. Additionally, I believe that I am qualified to serve as the Education Representative on the GGPNC because I attended LAUSD schools for the entirety of my K-12 schooling and, thus, have an insider's thorough knowledge of the function and malfunction of the system.

I would love to serve as a board member on the Greater Griffith Park Neighborhood Council because I believe that it is an excellent way for me to begin my service to the community. I plan to dedicate my life to the city of Los Angeles and I believe that there is no better time and place to start but here and now!

Thank you for your time and consideration!

Caitlin Price
